

intra**CONN**

FLEXIBLE BATTERY CONNECTORS

Intraconn is a company specialized in the manufacturing of flexible battery connectors using the latest techniques. Our products meet the highest quality standards and cover a wide range of connecting applications.

intraCONN

FLEXIBLE BATTERY CONNECTORS

Technical characteristics:

- Electrical connection of motive power cells with bolt on terminal
- Fully insulated acid resistance connection
- Optimum corrosion protection
- Flame retardant low resistance connector

Applications:

- Motive power batteries
- Stationary batteries
- Backup systems for ships – yachts
- Emergency systems for Mines
- Autonomous photovoltaic battery systems
